

PETERS
SEDUCED BY INDULGENCE

MAIN CATALOGUE 2020 2021

INNOVATIVE CONFECTIONERY

Everyone is talking about sustainability. We take this literally and rely on recyclable raw materials. Our goal is to become plastic-free. With our new packaging lines "Sprücheklopfer" (page 20/21) and "Gaumenfreunde" (page 22/23) we are placing first examples in which direction our efforts are going. Do not be too strict with us if we do not immediately implement everything – it will happen – we promise. With every relaunch or new development we examine all available resources for sustainability and being environment friendly.

Here you see our new symbol, which stands for our effort for adding value to environment and indulgence. At the same time, we are still a traditional craft company which is known for trendy and modern packaging.

In order to illustrate this aspect and to explain some of our strongest products, we have produced some video sequences for you that can be watched by using the QR codes.

Give it a try and scan this QR code on the right-hand side! We will show you our chocolate novelty Apple Crumble.

UNIQUE INDULGENCE

In 3rd generation we produce our artisan products with love and passion day by day to offer the utmost indulgence. Speaking of the patented Pecarée®, created by Norbert Frochte-Peters or the delicious, crispy biscuits or always new seducing tastily chocolates and truffles.

Sustainability

... is probably the most important task in the near future in order to make our planet permanently livable for all living today and for future generations. This affects us all because:

The greatest threat to our planet is the belief that someone else will save it

Robert Swan (British polar researcher and environmentalist)

We as PETERS are standing for pleasure, tradition, family, quality, innovation for more than 80 years and we love our earth, our hometown Lippstadt as well as the most remote corners of the world, some of which we have been able to deliver to. We too are requested to make our contribution to a more sustainable way of life and business, we are happy to accept this challenge and therefore make the following corporate task:

AGENDA 2025

By 2025, we want to be **plasticfree** in all our packaging variants and use almost exclusively sustainable paper and cardboard, because paper/ paperboard/ cardboard are the most sustainable packaging materials. It is renewable, recyclable, biodegradable and has the lowest CO2 values in the value chain. It is our goal to achieve the best possible product protection while conserving resources, because pralines, chocolates and pastries contain fats that cannot be packed into any paper, as these could be greased. So the product would suffer. In addition to quality, product protection has top priority, while we maintain our maximum claim to innovation and design.

We follow this task with every new edition and every further packaging design. Then why don't we get there any further than 2025? Recently, manufacturers have been working intensively on replacing plastics and developing materials in a more sustainable way. Not all articles are already available as we would like them to be. And even where there are alternatives, some of them have not yet been sufficiently tested and/ or certified. Our quality standards clearly include the safety aspect. Therefore, we do not yet use such articles. Politicians and industry must continue to work on their tasks in order to make these visions possible. Disposal must be guaranteed as well as the adjustment of the necessary resources of our suppliers.

Yours Christian Frochte-Peters

Find out more about our 2025 Agenda here

First steps towards a more sustainable subsistence strategy...

... we have already initiated in recent years, even without the current mass media phenomenon. Be it the long-term participation in the Dual System (Duales System) with consistent waste separation and forwarding to recycling companies, ever advancing paperless communication up to electricity-generating solar collectors on our production building.

The next steps are on the way with our novelties from 2020:

Our new range of chocolates, „Gaugenfreunde“ - Gourmet Friends -, which is **plasticfree**, uses certified and recyclable paper, and the chocolates inside are in a bag made from pure, natural brown cellulose that is biodegradable.

You can find this assortment on page 20/21.

... furthermore, the new truffle and praline mixes with the motto „Sprücheklopfer“, which are gift packs for (almost) every occasion, are also **plasticfree**. The commonly used plastic tray for the chocolates is replaced by an innovative paper insert, with the charming advantage that the description of the chocolates is printed around the praline.

You may find out more about this assortment on page 22/23.

All of the "Sprücheklopfer" range provide free additional benefits! With the use of **Augmented Reality**, these packagings provide a special playful aspect. Read more about this on page 22...

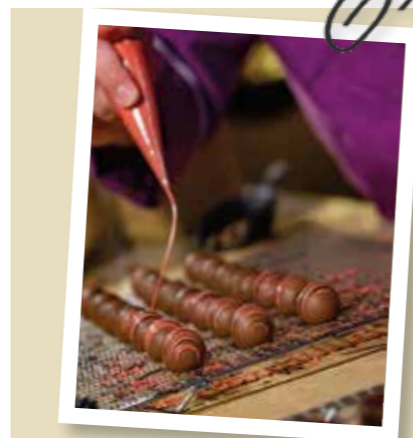

PETERS SCHOKOWELT

THE SWEET INDULGENCE – this is the motto of our Chocolateworld in Lippstadt. On 5 levels and 1.200 m² we offer on 359 days a year an El Dorado for fine chocolates and chocolate lovers as well as connoisseurs of all kinds.

The *SchokoWelt* is designed in the imaginative steampunk style. The unusual ambience extends from head to toe, meaning from the Chocolate Heaven over 20 meters height to the basement and it is to this extent unique in Germany – if not worldwide.

Visitors can experience the SchokoWelt - guided by our charming chocolate concierges - with all their senses. You get to see: Impressions from over 80 years of company history of the traditional company PETERS, information of the cultivation of cocoa and the processing of chocolate, imaginative chocolate showpieces, a *Schokotheek* and of course our chocolatiers and patissiers at work.

In the smelling laboratory, the smelling senses of our visitors are required. During the tasting of our fresh chocolates and our origin chocolate as well as a sweet stop at the 3-core chocolate fountain, the taste buds will be addressed – as it should be in a proper chocolate world.

STUNNING & ENJOYING

If you want to become active and creative, you have the opportunity to book one of our seminars. Under the expert guidance of our chocolatiers, the production of chocolate bars, chocolate hollow figures and, of course, handmade chocolates can be learned in several different seminars. In addition, there are seasonal offers, such as the production of gingerbread hearts and Christmas cookies.

On the ground floor our cozy and bright KaffeeBar invites you to relax and indulge. You may expect stunning, fresh breakfasts and snacks from our kitchen, as well as exclusive french tarts and cakes from our bakery. Our Baristi brew the finest and trendy coffee specialties and of course there are also hot chocolates, fancy teas, as well as refreshing soft drinks.

For reservation and questions, please contact the PETERS SchokoWelt team on +49 (0) 2941/290490 or send an E-Mail to: info@peters-schokowelt.de.

PECARÉE®

The highest art of a confectioner is the truffle ganache. The shell of this extremely delicate praline was designed to be as thin as possible. The finest spirits, such as Gin, Marc de Champagne, prosecco or a cherry liqueur give the truffle filling a special taste experience. We preserve with brandies, liqueurs and other alcoholic beverages. We have to, because most of these delicious Pecarées® are made with cream. They are so tender and creamy that it would be a sin not to eat them. And because of the used fresh cream inside we do need to preserve them. Rather than with sugar or any preservatives we use alcohol with flavor. This makes a big difference, as the centre gets very soft and tender and the flavored alcohol gives the chocolate the extra indulgence.

The word "pecaré" in Spanish means "I will sin". We use it in the context of: PETERS Carée - Pecarée®. And because Pecarée® is our invention, we had it protected across Europe. That is why the fine truffle bars are only available from PETERS.

DOROTHÉE FROCHTE-PETERS

EXPORT MANAGER - PARTNER

We do not only love chocolates, we also love our planet! That is why we are committed to sustainability in order to preserve this beautiful living space for the next generations.

NEW - PACKED SUSTAINABLY - NEW FLAVORS

What is different?

The box is made of FSC certified material. Instead of a commercially available transparent bag, we use a permanent paper bag inside, that is made of pure cellulose and is therefore compostable. In 2018 this material won the Federal Ecodesign Award.

With these new packagings we were able to pack the chocolates free of plastic. With the sales decision for this line you are signaling sustainability and you encourage us to continue on this path.

Thanks for trying it out.

Sustainability...

is our focus! We have achieved two goals with the „Gaumenfreunde“. On the one hand, this packaging fulfills all of our requirements for the environmental aspects defined by our Agenda 2025.

On the other hand, we have taken up new taste topics in order to be able to respond even better to customer requests. Whether with a shot for alcohol lovers or rather fruity, everyone will find a mix that suits them.

Gaumenfreunde

In line with our Agenda 2025, this line is one of our first to meet our criteria. Our goal is to achieve the best possible product benefit in a way that conserves resources. In addition to quality, this is our top priority. The chocolates are packed in bags that are biodegradable and still protecting the product sufficiently. Since bagged goods are relatively fragile and we maintain a minimum design requirement, we decided to use FSC-certified, fully recyclable outer packaging. In addition to freshness, we count on natural ingredients to produce these delicate chocolates.

In addition to the non-alcoholic chocolates, Augmented Reality is also a huge fun factor. These cute little presents will light up your day. The perfect gift item for a lot of occasions.

Sprücheklopfer

This packaging is made exclusively from FSC-certified materials and is fully recyclable after use. It therefore meets our requirements of our 2025 Agenda.

We succeeded in avoiding the use of plastic by designing a cardboard tray. We benefit from the fact that this tray can be labeled. For the first time we are able to print the description of the flavour around the chocolate. (see picture on the righthand side).

We thus offer customers an even better enjoyment experience. Read below about the free, spectacular additional benefits of this packaging.

The color of the capsules is striking compared to our conventional packaging. This is because these capsules are made from sustainable material - which consists of 100% cellulose. They are therefore fully compostable. This packaging is not only a design hit, but also corresponds to the highest degree with our self-imposed environmental goals.

Augmented Reality

In addition to enjoyment and environmental compatibility, there is also plenty of fun. All „Gaumenfreunde“ offer a free additional benefit!

When using the Peters SchokoWelt app, the rabbit jumps up out of the hat, the frog is kissed to a prince, the sheep jumps over the fence until you fall asleep, loving swans and a unicorn that have been brought to life are additional pleasures in addition to the taste experience.

Gift Boxes

The high-quality solid cardboard of this packaging reflects the gift character of this beautiful range..

The large clear window shows the wonderfully hand-decorated truffles and chocolates. This line is perfect for starting on your shelf, because the customer sees exactly what he gets.

The 400 g packs are filled with two layers of chocolates. They are therefore twice as deep as the 200 g packs.

The 400 g gift box contains 2 layers!

Cheese Biscuits

Spicy and crisp. Our cheese biscuits are sometimes even more popular than the tea biscuits.

They are actually all favorites, because they all sell equally well.

This year we launched: Cheddartaler. A crunchy cheese pastry with original cheddar cheese. Something special in terms of both appearance and taste.

Handmade Tea Biscuits

The sweet temptations always are freshly produced in our bakery!

Almond Slices, Butter and Fruit Tarts, Nougat Kiss, Sweethearts or Macaroon Confectionery, they are all so delicate and so fine that they melt on your tongue!

The high butter content still requires a handcrafted production, so each of our pastries is a unique piece!

What are Florentine Mountains?

First of all, they are significantly larger than our Florentine Hills. Whereas the second one can be served more as a small coffee, the Florentine Mountain is more of a dessert. These pictures show the original size!

They are made by our confectioners in fine craftsmanship. Sliced almonds are processed into small delicacies in conjunction with fresh butter and plenty of honey. Lightly dipped into fine milk or dark chocolate, they decorate every coffee bar.

Thanks to the fresh ingredients and the high butter and honey content, the Florentine Mountains are always beautifully soft.

„Apparently Silent Night“

A magical design full of calm and tranquility. But it only seems to be that way. Santa Claus just moves so fast that it gives the impression that he is standing still.

But with the help of the magical Peters Schokowelt app, his movement can be captured and made visible.

Every day something unexpected happens in a different place. Of course, the calendar door can also be found conventionally using the key strip provided. There are four different processes to choose from.

But if you decide to use the app, it is completely unpredictable which door is selected on which day. Over 6 trillion different combinations are possible. No wonder, then, that Santa Claus easily goes crazy on his wild tour through the night. The app requires an AR-capable iOS or Android device.

Santas Chocolate Factory: Advent is a very special time. And with fresh chocolates even more exciting. Therefore, the Christmas elves have built a small Advent chocolate factory for Santa Claus. Everyone who owns such a factory can enjoy a fresh chocolate candy every day and enjoy Advent.

Unfortunately, every movement in the factory is invisible to us humans. But there is a rumor that the Peters Schokowelt app can make the many magical processes in the small factory visible.

It is said that every day another part of the complex system is put into operation and a new delicious praline is created every day ... The app requires an AR-capable iOS or Android device.

The Advent Timemachine

is a desk calendar in cube format with 4 sides of 6 doors that can be opened all around. A time wheel on the lid enables manual setting of the time machine. With the help of the right symbol, the right door can then be located on one of the four sides. The traditional numbers on the doors are replaced by symbols.

This futuristic Advent Calendar in Steampunk look is filled with 300 g delicious chocolates, either with or without alcohol.

In line with our demand for more sustainability, we have developed a slipcase made from recyclable cardboard. It replaces the plastic foliation as protection.

The SchokoWelt app is available for all Apple products in the App Store and for Android in the Playstore.

Do the practical test and scan this QR code now and watch the **Augmented Reality Features** of the Timemachine in action.

Advent calendar with free additional benefits - Augmented Reality!

Augmented Reality Features are essentially additional, animated images that are added to an existing, real element. In our case, the real element is an advent calendar as a time machine.

The computer-generated images bring the product to life with the help of the SchokoWelt app and your smartphone or tablet. You will see how suddenly the clock on the calendar shows the current time. Cogwheels turn and the chocolate of the day is moderated. With the PETERS SchokoWelt app on your smartphone or tablet, Augmented Reality special effects can be made visible.

With 24 puzzles through the ChocolateWorld

With this theme advent calendar, we not only bring exciting puzzles, but also another, innovative calendar to your range. The calendar is filled with 255 g Pecarée® truffle tablets.

You can't skip this one, because it has never been there before. Embark on a mysterious journey through time with the PETERS Zeppelin.

(currently only available in German)

The sled of Santa Claus is a time travel classic car, which has failed the annual check for time machines. There are 24 complains found. Since time travel is extremely dangerous, spare parts have been hidden all over the world and the repair instructions have been encrypted as well. The sled builder, Mr. Sledge, hid the clues in 24 puzzles. Get on with the Peters Zeppelin, search for the necessary parts and lift the repair instructions. Solve all the puzzles and help Santa get the sled released by the REE (Responsible ExaminationElf) in time for Christmas. Thanks to Santas Inc., that will give you a special surprise.

Criminal Christmas ...

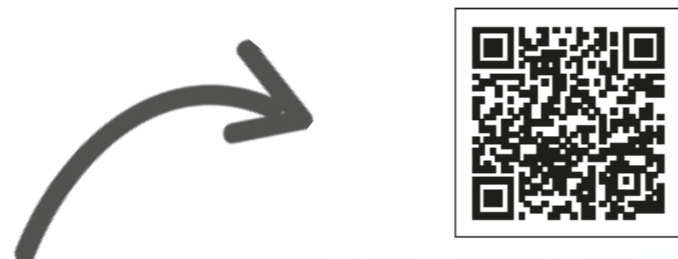

has long been a guarantee of success for us. The extraordinary crime thriller advent calendar in wing format promises both excitement and enjoyment.

All calendars have a self-contained action and therefore of course work perfectly side by side. The Criminal Christmas advent calendars are filled with our unique, fine truffle tablets - Pecarée®.

Not a bookworm? Doesn't matter, because from 2020 all chapters will also be available as an audio book download with QR codes printed in the doors. Simply scan the QR code on the right-hand side and listen to chapter 1 of the Criminal Christmas - The Conspiracy.

The speakers language depends on the basic setting of your telephone. the fallback language is English if no German system is found.

NEW! From 2020, all chapters will also be available on an audio book using the QR codes on the inside of the door. Without the app, a normal QR code reader tells you about the delicious content.

Christmas slipcase with hot gold seal

This elegant packaging line in matt black and glowing hot gold seal once again underlines the high quality content of these gifts.

After the season, the slipcases can be easily removed and sold as standard packaging as usual!

You have to see our nicely hand decorated truffles and chocolates.

That is why we have adapted our design and cut out a small window instead of the Christmas balls, so that the chocolates underneath can be easily seen..

The Christmas Family

The focus of this range is on St. Nicholas Day. Niko and Claus are clearly the favorites in the race within this Christmas Family. They can be very nicely integrated into small gifts or presented directly as such.

Rudolph and Chrissi will then be replaced in the second half of December. With or without alcohol, the Christmas Family is a strong ensemble for your Christmas setup.

Christmas Chocolates

Especially for the Christmas season, we offer you an assortment of bulk items that will surely find lovers during the Christmas season.

On a foray into the Christmas markets, our chocolatiers have put together this delicious range for you:

Mulled wine and rum stew and baked apple will remind you very much of a visit to the Christmas market.

Cinnamon, speculoos brittle are reminiscent of the scent of Christmas, and a stollen truffle is a must.

Traditionally since 1963

we still dip the baked stollen into liquid butter and thus preserve it. Afterwards it will be decorated with icing sugar.

All Stollen are available from October til December!

Quality symbol

The high butter content is a quality feature that should be communicated, because not every stollen can show this high amount of butter in its ingredients. In some places the butter stollen is stored too warm and then it „butteres through“. If this is the case just sugar it up.
